

School Screenings/Health Mandates for Hybrid and E-learning Students

Dear Parents/Guardians,

Every year your child is screened by the School Nurse for their vision and height and weight.

Additionally, students in K-3rd grade are screened for hearing.

If your child does not pass their vision or hearing exam, you will receive written notice.

State Health Mandates:

For kindergarten students: Physical exam, Dental exam and up to date immunizations

3rd grade students: Dental exam .

All new students need to have a physical and dental exam and be considered up to date with immunizations.

For those students that are doing Elearning, I would be more than happy to screen your child for any of the screenings. Please call me to schedule an appointment, at 610-351-5910.

Stay healthy,

Mrs. Joanne Smith RN
