## School-wide Positive Behavior Supports

Our School-wide Positive Behavior Support Program (SWPBS) uses a team approach in helping establish a positive social culture within the school building. It is a program for **ALL** students. It serves a key function for students as it describes and reinforces the expected behaviors and supports needed to improve social, emotional, behavioral, and academic outcomes. Students will receive **Golden Feathers** for displaying appropriate school-wide behaviors and participate in activities that reinforce positive behavior. Students who receive a **Golden Feather** while in the school building will receive a certificate to bring home. Students who receive a **Golden Feather** while learning online from home will be recognized on Schoology. Please watch and enjoy the short video for a more detailed explanation of the program as well as information on some additional motivating experiences our students may participate in. An additional aspect of our SWPBS program are school-wide assemblies which promote the program and help build and maintain momentum throughout the school year. To be inclusive and follow social distancing guidelines, all assemblies will occur virtually this year.

If your child earns a **Golden Feather**, celebrate it!
